IAGC Welcomes Karen St. John as VP - Environment

Houston, TX – The International Association of Geophysical Contractors (IAGC) has named Karen St. John, former Senior Director of Regulatory Affairs for BP America as its new Group Vice President - Environment.

“Karen brings to IAGC tremendous experience and expertise in dealing with governments and environmental issues, both internationally and here in the U.S.,” commented IAGC President Chip Gill. “We are excited to have Karen join the IAGC team leading the expanded practice group focusing on the geophysical industry’s response to increasing environmental challenges around the world.”

St. John comes to IAGC after being with BP for 24 years. Prior to working for BP, St. John worked for the American Petroleum Institute as Regulatory Affairs Manager. She has also served in a senior consulting capacity for the U.S. Department of Energy in her association with Weston Solutions and Battelle Memorial Institute.

St. John holds a Masters in Environmental Management from Duke University, an International Business degree from Georgetown University, an MBA from Ohio State University and a BS degree from the University of Michigan.

About IAGC

IAGC is the international trade association representing the industry that provides geophysical services (geophysical data acquisition, seismic data ownership and licensing, geophysical data processing and interpretation, and associated service and product providers) to the oil and gas industry. IAGC is currently in its 42nd year of service to the geophysical industry.

More information on IAGC and the geophysical industry can be found at <http://www.iagc.org> and <http://geophysicsrocks.com>
